## The Story of Street Scene

Street Scene Tours was created by Sthembiso Mbonambi and myself, Richard Powell, in early 2010, with one unique goal set at its core; to showcase Durban to Durbanites. As you can imagine this is by no means the conventional stance of a tour operator, but Street Scene is not your conventional tour operator. We are an owner managed business which results in attention to every detail thus ensuring everyone who embarks on a Street Scene trip is welcomed with 5 Star treatment.

The Street Scene team is made up first and foremost by capable and extremely proud Durbanites eager to show their city off to others. We are constantly exploring Durban and its surrounds, ever on the lookout for nuggets of history and the many hidden gems our province has to offer.

Durban and its surrounding areas are filled with a rich tapestry of history which is largely unknown not only to tourists, but also its residents. After all, Mahatma Gandhi made Durban his home for many years, and it was just outside Durban that Nelson Mandela cast his vote in the 1994 elections that forever changed South Africa. The great King Shaka Zulu also spent much time on the very land upon which Durbanites now call home.

From the city's architecture to its people, Street Scene aims to engulf its guests in all that is Durban. We started out with our focus on locals but soon realized that when you create a set of tours that residents of the city love, you are guaranteed to have tours that visitors to the city will find riveting and unique. There is nothing conventional about Street Scene Tours, and that's just the way we like it.

Street Scene Tours are used extensively by the eThekweni municipality, for reference kindly contact Eric Apelgren, Head: International and Governance Relations on 031-311 2124. We are also currently ranked by Trip Advisor as the *Number One Thing To Do in Durban*.

Street Scene has comprehensive public and passenger liability insurance and at the onset of any tour insure that all Street Scene Staff, vehicles and guests are covered in the unlikely event that anything should go wrong. There are no shortcuts when it comes to safety and all precautions are taken to ensure the safety of all of our guests whilst in our care.

We hope to see you soon and share our city with you.

All the best,  
**Richard Powell**
